

HARTFORD WEEKLY HERALD.

JOHN P. BARRETT, *Editor*
"NANCY VAN VOWER," *Editor*

WEDNESDAY, MARCH 3.

GEN. DON CARLOS BULL took charge of the Pension Agency at Louisville last Monday.

We return thanks to our Senator, Hon. S. E. Hill, for a neatly printed copy of the Governor's message.

If convicted labor is to be leased, why not Ohio and other countries in this part of the country, and enough of it make a few good roads? Convict labor applied in this way would not interfere with honest labor, on the contrary, would be a great benefit to all classes.

Mr. GEO. A. BROWNING has purchased the entire outfit and good will of the Madisonville *Times*. The *Times* under its former management was one of our most welcome exchanges. The editor, J. J. Glenn, is still with it, from which we feel assured that its high standard as a weekly newspaper will be maintained. Success to the new management.

The Legislature has passed an act paying Warden South his back pay and virtually closing his connection with the penitentiary. Did the Legislature refuse to concur in the removal of Warden South by the commissioners, just to get a chance to donate \$2,700 to him for services never performed? It seems so from this last act. Well its the people's money and they are not particular.

"Young men keep your record clean." These were the last words of John B. Gough, the grand Temperance advocate, in closing his last lecture. Young gentlemen this is a good motto, and should be framed of burnished letters, and hung in your bed chamber, where it will greet you each morning until it will be indelibly stamped upon your conscience. In these words are the landmarks of every thing noble and grand.

The Democrats of Breckinridge, Hancock and Marion counties allowed their nominee for State Senator to be defeated last August by a Republican, who, it has just been discovered is ineligible to the office. Dr. Byers, a minister of the gospel, and has conducted a protracted meeting since his election. The State constitution prescribes that no minister shall be a member of the Legislature. —*Oncordian Messenger*.

ANOTHER triumph for whisky, result: "Dick" Fitzgerald drunk and in jail, George W. Bunker stabbed and in bed. Victory perched on his lan- ner. We suppose that his liquor legally. As a matter of course, no one would let him it illegally, or should not. The law permits those having license to let adults, who are not inebriates, nor in the habit of getting drunk, have it. The authorites are, doubtless, posted as to the law and to whom license has been granted and who are dealing in that disturbance of law and order. Investigation will disclose the law and order. An important and numerous people, clamoring to know if the whisky has been violated. The inebriate, the man who is in the habit of getting drunk, and who has been allowed to tinkle more than is necessary, certainly knows where he got his liquor. As a matter of course, if sworn, he will tell where he got it and the records will show who has license.

What say the authorities; will you take a step to find out? We shall see. The people are looking to see if there will be an investigation to ascertain the legality of the sale of whisky in these parts.

In the city of Henderson are now six saloons which pay a license of \$120 each, an aggregate of \$6,000 per month. Each saloon is to be given 100 gals. and water to the amount of \$100 or say for the \$120. The amount received from the saloons, then \$1200. The question has frequently been asked, what do the Prohibitionists propose to substitute for this revenue? —*Henderson Journal*.

The Journal should have continued its enumeration. The saloons yield a larger, and more varied revenue. Brokers, carpet dealers, furniture dealers, weavers, wives, sharing children, broken homes, half-imbued, half-jail, crowded penitentiaries, midnight assassinations, unprovoked murders, gambling, general debauchery, theft, licentiousness, police forces, costs of prosecutions, street brawls, irreligion, suicide, a stupid public opinion, the hands of society well-nigh disrupted, home-ty, venality, virtue, morality utterly destroyed, or finally prosituted.

Prohibitionists everywhere, here of a few blood-stained thousands of dollars, propose to give, happy hours, noble manhood, law-abiding citizens, well attended churches and schools, chastity, honesty and truth, little need of police, and a general public opinion, orderly communities, health and well-being for children, industrious fathers, loving and contented wives, intelligence and refinement, a general financial confidence and permanency compared to which the

increased saloons become hideous indeed. Does the Journal seek further information?

THE SCHOOL QUESTION.
The Legislature seems to be at sea in its dealing with the school question. Even the acute and progressive Senator Berry has lost in its mighty complexity. His practical methods are abandoned, which if adopted would be perfectly useless.

If the Legislature will deal in a business-like manner with the financial aspect of the case, the other masters will work right of themselves, increase the interest-bearing fund, make the interest plus the regular school revenue distributable. To accomplish this increase, put a tax on whisky, beer, wine, brandy—tobacco might be added, and a fund of \$400,000 could easily be raised in this matter, and necessarily should be taxed.

E. THOMAS KILLS HIS OWN BILL.
LAST Saturday in the Legislature a senator offered an amendment to a bill introduced previously by Hon. T. Thomas, Jr. of Muhlenberg. Mr. Thomas moved to table the amendment, or rather to defer the action of any legislative body to instruct the House as to the effect of a motion, etc.

Chapter I. How to prepare and introduce a bill.

Chapter II. How to regard amendments to bills, etc., etc.

Chapter III. When to lay amendments on the table, etc., etc.

Chapter IV. The right of a senator to withdraw a bill or any part of it.

Chapter V. The precise moment to sit down and say nothing.

Previous experience no object. Terribly free. Send in your orders at once.

AGENTS WANTED.

The Change of a Life—*Big Money* to be made.

The greatest work of the year is to be done by Hon. R. Y. Thomas, the talented young member now representing the county of Muhlenberg, in the Kentucky Legislature. Mr. Thomas is standing up for a cause which will give the work a tonic unlike anything of the kind in this century. The very title of the work conveys it to the mind of the kind of the kind.

The contents of this great work are varied, and as fascinating as its title.

Chapter I. How to prepare and introduce a bill.

Chapter II. How to regard amendments to bills, etc., etc.

Chapter III. When to lay amendments on the table, etc., etc.

Chapter IV. The right of a senator to withdraw a bill or any part of it.

Chapter V. The precise moment to sit down and say nothing.

Previous experience no object. Terribly free. Send in your orders at once.

STATE NEWS.

A Stanford boy tramped a hawk that measured four feet four inches from tip to tip.

The people of Hickman county have organized a society for the suppression of vice.

Charles Anderson, a colored butler, was found dead in the H. H. Barber shop in Owenton last week.

The snapshot is not wanting that Mrs. Lucy Grimes Boyd was murdered instead of having committed suicide.

Hopkinsville will have a religious service for the colored people, and will be officiated by Rev. Allen Almonew, colored.

Alex Perry, colored, confined in jail at Paducah for house-breaking, attempted suicide by striking himself with the head with a board.

Col. Dodd, of Calhoun, is a man of great energy. He is about to make a tank establishment in town. Edith will have a place for their succu-

cul. Mr. Ben Hackett of Woodford county, says that the fly will not trouble the wheat crop.

For 1886 - The implement of our town are doing a fair business considering the dull times.

Farmers are waiting patiently for winter to break that they may begin preparing for a crop.

It is a fact that this is the season for muddy roads and lean cattle.

I have not seen the HERALD that contained "G. W. G." articles, but judging from "Suggey" reply I suppose he scored a right sharp.

Major General Roger has been quite sick for some time.

Mr. John C. Westbrook left Tuesday for Warren county, and will return Saturday.

As news is scarce I will give a few statistics in regard to the progress of the "New South." The figures are mainly from the annual article in the *Standard* of recent years. One noticeable feature is the wide diversity of new enterprises, which includes almost every industry known in the country. During the past twelve years there has been a constant and increasing number of new enterprises in the South, including capital of new companies, formed during the year, and cost of enlarging and rebuilding establishments from up the grand total of \$89,000,000. Kentucky takes the lead in new enterprises, with a total next with \$76,000,000, while Mississippi is last with \$76,000,000. Taking the depressed state of business into consideration this shows that the South is moving forward in these to important industries.

Since 1880 there have been built in the South 10,400 miles of railroads, the cost of which added to the investments in old roads and their improvements reached the sum of \$371,000,000. The cost of equipping these railroads and roads to date is \$125,000,000, while in 1880 it was \$57,000,000, a growth in five years of \$70,000,000. The assessed value of property in the South has increased nearly 100% in the last five years, while the value of personal property the increase was \$235,000,000, with an average increase of \$10,000,000 from 1870 to 1885.

The *Commercial* of September 25, 1884, says: "The South, with the States of the Southern States in assessed property, shows a sum amounting to \$863,607,314. The greater part of this interest is attributed by the New Orleans *Times-Democrat* to the growth of cotton culture, and the Southern people are beginning to recognize the fact that it is cheaper to manufacture their raw materials at home, than it is to ship them to the North or Europe, and have them manufactured there, and then to bring them home, consuming the time in the latter case they pay cost transportation both ways, also a tariff duty. They are beginning to realize that a home market is the best market. While the South is the source of many and enterprising, the surplus products of the South will find ready transportation to her centers of commerce to be shipped to others who may be in need of them. Possessing fertile soil, good coal and iron, fine timber and mineral wealth, the South is destined to rank among the first in agriculture, manufacturing, and mining. She is awakening to the golden opportunity before her; is developing her resources to some extent; is inviting in, industry and wealth to settle in the future of the mighty world."

SCHOOLDAY.

Marriages. - On the 17th Inst., at the home of the bride's father, Dr. Joseph Jet, Mr. M. D. L. Miller to Miss Susan E. Jet, by the Rev. C. B. Phillips, Atwood, Obed. Bunting and Jaun signified.

On the 18th Inst., at the residence of the bride's father, Joseph S. Miller, the Rev. H. T. Crow to Miss Sarita G. Miller, by the Rev. W. K. Denney, Atwood, Obed. Bunting and Jaun signified. The bride and parents of the newly married couple partook, on the 18th Inst., of an elegant repast at the home of Mr. Joseph S. Miller, shortly thereafter Rev. H. T. Denney read a short prayer, and the couple adjourned to the many, pious to the Nation. It makes the difference between a people who move as a stream, and a people who stand like a pool.

A friend of the Jerseys and other small breeds of cattle says: "Better keep a cow that is worth a little less than \$100, than a steer for \$100 in extra provisions, than to keep a steer that will yield only \$20 or \$30 per year, because in the end she will sell for a few more dollars than the butcher."

A friend of the Jerseys and other small breeds of cattle says: "Better keep a cow that is worth a little less than \$100, than a steer for \$100 in extra provisions, than to keep a steer that will yield only \$20 or \$30 per year, because in the end she will sell for a few more dollars than the butcher."

Our wedded friends belong to the best and most refined society here, and we heartily wish that joy, peace, love and patience may ever be theirs. W. J. CHIDDE.

Where to begin Cleaning. [Mayfield Monitor.]

After all, in the opinion of the voter - to whom it is natural for justice, Corruption in the office had its origin in the elements of his election. Time was when there was more true patriotism and love of country and less looking after personal aggrandizement. The increase of population and the multiplication of interests and enterprises,

large salaries and government jobs, ate a new impetus to office seeking, because those in places to bestow power and grant privileges were sought out by corruptionists, who were willing to pay for greater advantages. This attitude of parasite of political office caused shysters to spend money for office. This brought corruption home to the people. Hence so long as people vote for office, corruption, robbery, and general venality will prevail in all elective departments of our government. The people will never vote out your way. Your people will want a just and govt. government, let them be just and honest themselves.

Stipend. - For eleven years I have suffered from a cancerous sore on my throat. At times it became very angry in appearance, discharging large quantities of matter and giving me much pain. I used to apply a poultice to the sore, and it would go down and a scab would form over it, then it would increase in size again and trouble me greatly and finally break and discharge again. This for years it has been an ulcer, and I have never been able to cure it. I have tried to let him use the knife on my throat. About that time I saw the advertisement of Swift's Specie, and I applied to him for a cure. He said "I can't do it." I then applied to Dr. Powers at six dollars. Given my hand, this, the 24th January, 1886. J. L. HARRIS, J. P. O. C.
